Email: swethshaw@gmail.com

Portfolio: <https://swethshaw.github.io/Portfolio/>

SKILLS

- **Programming Languages:** C++, JavaScript, Python, Swift, Typescript
- **Frontend:** HTML, CSS, Bootstrap, React, Tailwind, React Native, Angular
- **Backend:** Node.js, REST API, Express.js, Django, OAuth, WebSocket APIs
- **Databases:** MySQL, MongoDB, Firebase, Supabase, AWS
- **Development Tools:** Git, GitHub, Postman, Xcode, Android Studio, Docker, CI/CD
- **Soft Skills:** Analytical Reasoning, Team Collaboration, Leadership

WORK EXPERIENCE

SMARANALIN | Full Stack Team Lead Intern

Sep 2025 – Dec 2025

- Led a remote full-stack team by defining architecture and delivery timelines.
- Built and reviewed applications using React, Node.js, and REST APIs.
- Mentored developers and resolved technical and coordination blockers.
- Tracked daily progress and reported status to senior consultants.

EDU-VERSITY (Ex tech Digital) | Full Stack Web Development Intern

Aug 2024 – Sep 2024

- Built responsive full-stack apps using React, Node.js, MongoDB.
- Developed REST APIs with JWT authentication and role-based access.
- Optimized UI performance using Tailwind CSS; deployed on Vercel.
- Collaborated via Git in Agile sprints with daily standups.

PROJECTS

Real-Time Multiplayer Quiz Platform

Jan 2025 – Feb 2026

- Engineered a WebSocket-driven multiplayer quiz app featuring live leaderboards and real-time cohort syncing.
- Engineered role-based access controls for distinct host and player interfaces, enabling secure live quiz deployment.
- Managed complex frontend state to handle live question rendering, dynamic timers, and real-time score feedback.
- Technical toolkit: React, Typescript, Express, MongoDB, WebSocket.

Ruppy Khata – Peer-to-Peer Fintech SaaS Platform

Nov 2025 – Jan 2026

- Built a peer-to-peer financial platform allowing users to generate and settle bills directly via UPI integration.
- Engineered automated billing logic for recurring subscriptions, custom installments, and split-bill calculations.
- Implemented OAuth/OTP logins, locally encrypted 6-digit PINs, and biometric verification for secure payments.
- Designed a system featuring custom QR-based profile sharing, automated PDF invoices, and a delegated Staff Centre.
- Technical toolkit: Next.js, React Native, Node.js, Express, Cron, Firebase, Supabase, TypeScript.

Micromouse Maze Game

Dec 2024 – Jan 2025

- Devised maze-solving algorithms (DFS, BFS, A*, Flood-Fill), reducing navigation time by 30%.
- Built interactive Pygame interface for live tracking, increasing user participation by 25%.
- Engineered dynamic maze generator to adjust complexity, boosting solution diversity by 15%.
- Technical toolkit: Python, Pygame, Tkinter, Algorithmic Navigation.

TRAINING

CIPHERSCHOOLS (MERN Stack) | Full-Stack Web Development Intensive

Jun 2024 – Jul 2024

- Attained in-depth MERN stack training (MongoDB, Express, React, Node) covering full-cycle development.
- Designed responsive, user-friendly interfaces using HTML, CSS, Bootstrap, and Tailwind CSS.
- Utilized RESTful APIs, Redux, and Context API for effective data management and secure user authentication.
- Deployed scalable full-stack applications on Firebase and Vercel, mastering real-world deployment.

CERTIFICATES

- IBM DevOps and Software Engineering (Coursera) May 2024
- Mastering Data Structures & Algorithms using C and C++ by Abdul Bari (Udemy) Apr 2024
- SQL(Advanced) certification (Hacker Rank) Mar 2023

EDUCATION

Lovely Professional University

Bachelor of Technology – Computer Science and Engineering; CGPA: 7.59

Tripurasari VidyaMandir

Intermediate

Montfort Hr. sec School

Matriculation

Phagwara, Punjab

Aug 2022 – May 2026

Gandhigram, Tripura

Apr 2020 – Mar 2022

Champak Nagar, Tripura

Apr 2018 – Mar 2020
